
RoamAbout 802.11a/b/g Client PC Card (RBTBJ-AJ) Radio Certification and Regulatory Information

This document provides the regulatory information and technical specifications for the RoamAbout 802.11a/b/g client radio card (RBTBJ-AJ). This radio card can be used in wireless clients only. It cannot be used in the RBTR2 Wireless Access Platform or the Access Point 2000.

To ensure that you have the latest version of this document, check the Website: www.enterasys.com/products/wireless.

Caution: Changes or modifications made to this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Precaución: Cualquier cambio o modificación a este dispositivo sin la aprobación del organismo autorizado, puede anular el derecho del usuario a operar el equipo.

Achtung: Änderungen oder Modifikationen, die an diesem Gerät ohne Zustimmung der verantwortlichen Partei vorgenommen werden, können die Berechtigung des Benutzers zum Betrieb des Geräts ungültig machen.

Exposure to Radio Frequency Radiation

The radiated output power of the IEEE 802.11 RoamAbout PC Card is far below the FCC radio frequency exposure limits. Nevertheless, the RoamAbout PC Card shall be used in such a manner that the potential for human contact during normal operation is minimized. This 802.11a RoamAbout PC Card is intended for indoor use only.

Interference Statement

This equipment generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or TV technician for help.

Enterasys Networks is not responsible for any radio or television interference caused by unauthorized modification of the devices included in this kit, or the substitution or attachment of connecting cables and equipment other than specified by Enterasys Networks. The correction of interference caused by such unauthorized modification, substitution or attachment will be the responsibility of the user.

Channel Information

- 802.11b/g • Indoor use only: 13 (1 to 13)
 - 802.11a • 8 non-overlapping channels (5.15 to 5.35 GHz)
-

Radio Approval

You can find the radio transmitter number of your device on the identification label of your wireless device.
