

## CUSTOMER RELEASE NOTES

**Enterasys RoamAbout™  
RBTBJ-AJ 802.11a/b/g Client PC Card Kit  
Version 1.0.2  
(Japan Only)  
March 2008**

### INTRODUCTION:

This release of the RoamAbout RBTBJ-AJ 802.11a/b/g Client PC Card Kit contains the 802.11a/b/g driver V4.1.2.1464 for Windows. The driver supports ONLY the RoamAbout RBTBJ-AJ 802.11a/b/g Client PC Card in an 802.11a/b/g wireless client. This product is for use in Japan only.

**Enterasys recommends that you review this release note prior to installing or upgrading to this product.**

**NOTE: The driver versions are based upon the Atheros driver versions, and although the new driver version of 4.1.2.1464, equivalent to the Atheros version 4.1.2.146, appears to be a lower number than the previous version, 4.1.2.7116, equivalent to the Atheros version 4.1.2.71, the 4.1.2.146 Atheros version is the newer driver version.**

## CUSTOMER RELEASE NOTES

### SUPPORTED FUNCTIONALITY:

The RoamAbout driver supports the following operating systems:

- Microsoft Windows XP
- Microsoft Windows 2000
- Microsoft Windows Vista

**Note:** The Client Utility is not supported on Microsoft Windows Vista.

### INSTALLATION AND CONFIGURATION NOTES:

Refer to the latest *RoamAbout 802.11a/b/g Client PC Card Installation and Specifications* document for setup and installation instructions. This document is available from: <http://www.enterasys.com>.

**Note:** This release is for the Client Card driver only. Enterasys recommends the following procedure to update this driver.

1. Download the zip file for the drivers from the Download Center, <http://www.enterasys.com/download/>, and unzip the contents into a temporary folder. Keep this information ready for step 4.
2. Open the Network Connections window (Control Panel/Network Connections), and right click on the Wireless connection and click "Properties".
3. Click on the "Configure..." button, and go to the "Driver" tab.
4. Click on the "Update Driver..." button, and follow the direction in the wizard that follows. When the option to automatically search for the driver or search the computer manually appears, choose the manual method and go to the folder used in step 1.
5. Finish the install.

### FIRMWARE CHANGES AND ENHANCEMENTS:

#### **Firmware Release 1.0.2 (driver update to 4.1.2.1464):**

Resolved a low power performance issue that caused slow wireless performance and network instability.

#### **Firmware Release 1.0.1 (April, 2007):**

The *RoamAbout 802.11a/b/g Client PC Card Installation and Specifications* document was updated to include Microsoft Windows Vista support.

Added the driver version for Microsoft Vista Support.

#### **Firmware Release 1.0.0:**

Initial Release.

### KNOWN RESTRICTIONS AND LIMITATIONS:

#### **Firmware Release 1.0.2 (driver update to 4.1.2.1464):**

The RoamAbout RBTBJ-AJ 802.11a/b/g Client PC Card is only for wireless clients.

Japan is the only country supported.

Any problems other than those listed above should be reported to our Technical Support Staff.
